# 62.23 1943--OTWELL IRIS FIELDS--1943

CARLINVILLE, ILLINOIS

This flower-surrounded home has been visited yearly by many thousands of flower lovers. It was built by the late Will B. Otwell, who founded the Otwell Iris Fields and who for many years was a successful nurseryman and horticulturist. The home is still occupied by his wife, Winifred B. Otwell, who is continuing with the work.

The iris growing began as a simple experiment to beautify some vacant town lots. The result was so gratifying that the plants were transferred to their present place, where the work of developing and perfecting them has continued through twenty years, until today Otwell iris are grown in gardens in every state in the Union.

Whether "people make the place" or "the place makes people" is debatable. Life weaves its pattern so intricately about both, that we seem a part of our abode, and cannot be content elsewhere. This flowered spot, for me, is home—away from it spells homesickness.

It is encouraging to know that the love of the beautiful still lives in the hearts of people in a war torn and intensely practical age. I would share these acres of beauty with you—they would not be half so beautiful to me without your presence and enthusiasm—so I am hoping to greet you personally when you come in May. But if a visit is not possible for all this year, I shall look forward to meeting you through the pages of this little folder, to share with you the loveliness of our realm of beauty which is the rich product of the soil and soul.

Winifred B. Otwell

# WILL B. OTWELL

To you, our many valued friends who do not know that my husband, Will B. Otwell, has passed away, I bring this message.

His earthly work of cultivating flowers and trees is over, but in that beautiful country of the soul where he has gone, there are spiritual flowers of great beauty and I am sure he is tending there, blossoms even lovelier than the ones he tended here. These earthly flowers will bloom again and welcome Spring but he who planted them will not be here to greet you this year.

Because he cared for you too and realized great happiness in his countless friends, often expressing himself as owing you, both his seen and unseen friends, an enormous debt of gratitude for your priceless friendship through

the years, I would tell you more about him.

His life was like a prayer and that prayer was to be good and to do good. No one knew better than he the fine art of unselfishness. He was honorable, sensible, unassuming and undemanding—the product of fine living. He builded his character of the finest materials, knowing that nothing grows unless it is touched by the Infinite. He met life with a zest unbounded and it was his constant desire to do something worthwhile for those about him. In the growing of flowers as in many other things he willed that those flowers should bring happiness to others.

And in that last hour he was unafraid because he had lived his faith in God and now he has gone to tend flowers in the sweet fields of Eden. For his sake and for the sake of the work he loved so well, I shall continue this work of love and beauty he endeavored to bring into your lives.

## OUR FAVORITE RED IRIS COLLECTION

It is doubtful if anyone grows more red iris than we do. We are constantly preparing for this popular collection, trying to improve it in every way. Needless to say it is the most popular of all the collections we offer. We have shipped many hundreds of them every year, all over the United States and it has been very enthusiastically received everywhere.

This picture above, taken in mid-May, will perhaps give you a faint idea of the beauty and extent of our red iris plantings. When you come to see them I feel sure that you will not want to hurry away. And if you cannot come, they can be sent to you. They should not all stay here, but should be planted in the gardens of flower-lovers everywhere.

Accordingly I have tried to make up the best Red Collection that we have ever sent out. It will contain four red iris in four varieties and as a patriotic touch, two lovely fragrant white iris and two rich blue iris—twenty in all, labeled and postpaid to your door with special planting instructions for \$3.00.

I am certain that you will love this beautiful and unusual collection.

Mrs. W. B. Otwell

## FOR YOUR INFORMATION

In this modest folder there is not one variety of iris listed that we have not grown and tested for its health, beauty and adaptability before offering it to you.

We grow no flowers but iris and grow them by the thousands. We specialize particularly in red and pink iris.

We ship out only the finest, best developed stock, which is sure to please you.

Send your orders any time you wish and we will ship at the best time for planting. July to November are good planting months. We make no shipments until after the blooming season.

Please send cash with your order, either a post office money order or your personal check is acceptable. If it is the shipping season, I will not acknowledge your order by letter but instead will rush your shipment to you at the first opportunity. If there should be a few days' delay, don't write. It may have rained here and thus hindered the digging operations slightly. Every effort will be made to serve you promptly. If your order is made out of the shipping season, I shall acknowledge the receipt of your letter and remittance and ship your order to you at the right planting time.

For real iris beauty, plant fewer kinds and plant more of each kind if you wish to make the best showing. We can, upon inquiry, make you some very attractive offers on iris in large lots of 100 to 500 or more for flower beds, borders for walks or driveways, erosion plantings or landscaping of any kind. Clubs and Societies often buy in large quantities and divide amongst their membership, thereby getting the benefit of special price offers.

We do not sell new and untried kinds of iris. There is no better way to part with your money in a hurry and in most cases experience disappointment. Novelty is often worth only fifty cents instead of fifty dollars after a year or two. By that time you will be able to judge as to whether they are novelties or prime new favorites.

Please look over our list of collections, and see if some of them do not meet your requirements. All our collections this year are being shipped parcel post prepaid in order to make it easier on your gas ration. All other orders from this catalog will be shipped to you parcel post prepaid at the prices quoted for each iris herein, unless your order exceeds fifty plants. In that case you will assume the postage or expressage. Prices quoted in our other catalogs are not effective. No order for less than one dollar will be accepted if packing and shipping are necessary. No C. O. D. shipments will be made—please—as they cost you more and waste our time.

When you get to Carlinville stay on the pavement until you get to the Community High School, west of town. Turn north there and follow the iris signs. There are no charges of any kind at the Otwell Iris Fields and plenty of room to park your cars.

Trusting that many of our friends may renew their friendships at our Flower Fields in May, I am, sincerely,

MRS. W. B. OTWELL,  
Carlinville, Illinois.
